INTRODUCTION

Data used to prepare this report are taken from birth, death, stillbirth, marriage and divorce certificates of these events occurring in calendar year 1979 and filed in the office of the Kentucky Registrar of Vital Statistics prior to April 1, 1980. Vital events occurring to Kentucky residents in other states, and recorded in the office of the registrar by June 30, 1980, are also included in totals by residence.

All statistics contain variations which are the result of chance. This characteristic is of particular importance when dealing with small numbers of events. In such cases small variations are proprotionately large in relation to the base figure. As an example, small changes in the number of deaths or births in small population areas or in the number of deaths from uncommon causes could result in large changes in these rates. For this reason, rates for counties with small population or other small bases should be used cautiously.

Our efforts to make this report more useful in planning continue. Additional data tables are planned for the 1980 report. Additionally, we are continuing our efforts to publish this report as promptly as possible after receipt of out-of-state vital events for Kentucky residents.

Suggestions and comments on alternate methods of data presentation are welcome. Forward any suggestions to the address below.

SOURCES OF DATA

Population -	1978 State and County totals and Disaggregations furnished by University of Louisville Urban Studies Center Population Research Division.
School Absentees -	Percent of attendance in all public schools from superintendent's Annual Statistical Report furnished by Department of Education.
Density -	Number of people per square mile using estimated population.
Unemployment Rate -	From 1979 Annual Report prepared, in conjunction with U.S. Bureau of Labor Statistics, by Research and Statistics Branch, Department for Human Resources.
Per Cent on Public Assistance -	Average monthly number of eligible recipients Fiscal Year 1979 furnished by Bureau for Social Insurance (report series PA 264).
Live Birth, Death, Stillbirth, Marriage and Divorce Data -	Kentucky certificates Calendar Year 1979 entered into Automated Vital Statistics Information System.
Facility Beds -	Annual Hospital Utilization Survey.
Health Manpower -	Provided by Kentucky Nursing Association, Kentucky Medical Licensure Board, Division of Preventive Services (Dental Health), State Board of Pharmacy and Kentucky Board of Optometric Examiners.

DEFINITION AND RATES

TOTAL BIRTHS: Live Births and Fetal

LIVE BIRTH: A live birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such separation, breaths or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.

STILLBIRTHS (FETAL DEATH): death prior to the complete expulsion or extraction from its mother of a product of conception, having passed through at least the 20th week of gestation; the fetus shows no signs of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.

RESIDENCE: Usual place of residence for person to whom event occurred. For births and fetal deaths residence is defined as the mother's usual place of residence.

OCCURRENCE: Place where the event actually occurred.

RACE: Race of mother, father, or descendant is as stated on certificate. Race of child is determined from the race of the parents.

PREMATURE (LOW-WEIGHT BIRTH): Birth wherein the birth weight is equivalent to 2,500 grams or less (approximately 5 lbs., 8 oz).

ILLEGITIMATE BIRTH: Birth wherein there is no marital tie between mother and father.

LIVE-BIRTH ORDER: Order number is equal to number of previous live births plus current birth.

INFANT DEATH: Death occurring to individual of less than 1 year of age.

NEONATAL DEATH: Death occurring to individual less than 28 days of age.

PERINATAL DEATH: Fetal death or a death under 1 week of age.

MATERNAL DEATHS: Those deaths wherein the physician has designated a maternal condition as the underlying cause of death.

CRUDE BIRTH RATE= No. of Resident Live Births divided by Total Resident Population X 1,000.

CRUDE DEATH RATE= No. of Resident Deaths divided by Total Resident Population X 1,000.

AGE-SPECIFIC BIRTH RATE= No. of Resident Live births for a Specific Age of Mother divided by Total Female Population of Specific Age X 1,000.

FETAL DEATH RATE= No. of Resident Fetal Deaths divided by Total Resident Live Births X 1,000.

ILLEGITIMACY RATIO - No. of Resident Illegitimate Births divided by Total Resident Births X 1,000.

INFANT DEATH RATE - No. of Infant Deaths divided by Total Resident Live Births X 1,000.

NEONATAL DEATH RATE - No. of Neonatal Deaths divided by Total Resident Live Births X 1,000.

PERINATAL DEATH RATE - No. of Perinatal Deaths divided by Total Resident Live Births and Resident Fetal Deaths X 1,000.

MATERNAL DEATH RATE - No. of Maternal Deaths divided by Total Resident Live Births X 10,000.

AGE-SPECIFIC DEATH RATE - No. of Deaths in Specific Age Group divided by Total Resident Population in Specific Age Group X 100,000.

MARRIAGE RATE - No. of Persons Married divided by Total Resident Population X 1,000.

DISSOLUTION RATE - No. of Persons (Divorces and Annulments) divided by Total Resident Population X 1,000.

POPULATION DENSITY - Estimated Population divided by area square miles.

UNEMPLOYMENT RATE - Number Unemployed divided by labor force X 100.

% ON PUBLIC ASSISTANCE - Average monthly number recipients divided by estimated population X 100.

FIRST BIRTHS - First Births divided by live births X 100.

4TH AND OVER - Fourth and Over Births divided by live births X 100.

FERTILITY RATE - Number Births divided by number of women aged 15-44.

MANPOWER RATES - Number of Licenses divided by estimated population X 1,000.
